

MECHNOVA MANUAL SPRAYER-

Mechnova Manual Sprayer MS25BDI-4SB is designed for farmers who need higher tank capacity, efficient spraying, and reliable field performance. Built with a 25L tank capacity, JX35 air-cooled 4-stroke engine, high pressure range, and strong water flow, this sprayer helps in effective pesticide, fertilizer, and disinfectant spraying. With its powerful engine and practical design, Mechnova MS25BDI-4SB is a suitable choice for farms, orchards, gardens, nurseries, and crop protection needs.

ACCESSORIES

			
Spray Gun	Spray Lance	Tool Kit	Hose

FEATURES

- 25L TANK CAPACITY**
 With a 25L tank, Mechnova MS25BDI-4SB allows longer spraying operations with fewer refills, making it suitable for regular farm and orchard use.
- HIGH PRESSURE SPRAYING**
 The 1.5–3.5 Mpa pressure range ensures effective spray coverage for crops, plants, orchards, and agricultural fields.
- EASY PORTABLE HANDLING**
 Its practical design makes it easy to use during pesticide, fertilizer, and disinfectant spraying in farms and gardens.
- POWERFUL 4-STROKE ENGINE**
 Equipped with a JX35 air-cooled 4-stroke engine, this sprayer delivers smooth, reliable, and efficient performance during spraying work.
- STRONG WATER FLOW**
 With 3–8 L/min water flow, the sprayer helps cover more area in less time and supports efficient field operation.
- RELIABLE SPRAYING PERFORMANCE**
 Built for regular agricultural use, Mechnova MS25BDI-4SB offers dependable performance for crop care, plant protection, and farm maintenance.

USES OF MACHINE

Pesticide spraying

Fertilizer spraying

Crop protection

Garden & nursery
spraying

Farm sanitation
and disinfection

TECHNICAL SPECIFICATION

SPRAYING PERFORMANCE

- Pressure: 1.5–3.5 Mpa
- Water flow: 3–8 L/min
- Tank capacity: 25L
- Suitable for pesticide, fertilizer, and disinfectant spraying

ENGINE & POWER

- JX35 engine
- Air-cooled 4-stroke engine type
- 35.8cc engine displacement
- Engine power: 1.0KW / 7000 RPM
- Net torque: 1.4Nm / 5000 RPM

FUEL & OIL CAPACITY

- Fuel tank capacity: 630ml
- Engine oil capacity: 80ml
- Fuel-efficient operation for regular field use

ENGINE STRUCTURE

- Bore × Stroke: 39 × 30 mm
- Compact and reliable engine design
- Built for smooth spraying performance

FIELD APPLICATION

- Useful for farm spraying
- Suitable for orchards and gardens
- Helps in crop protection and plant care
- Designed to reduce manual effort in spraying work

Uses

- Pesticide spraying
- Fertilizer spraying
- Crop protection
- Orchard spraying
- Garden & nursery spraying
- Farm sanitation and disinfection
