

MECHNOVA PORTABLE SPRAYER-

Mechnova Portable Sprayer MS35-4S is designed for farmers who need easy movement, efficient spraying, and reliable performance for daily field work. Built with a JX35 air-cooled 4-stroke engine, 1.5–2.5 Mpa pressure range, and 3–8 L/min water flow, this portable sprayer helps in effective pesticide, fertilizer, and disinfectant spraying. With compact handling and dependable engine performance, Mechnova MS35-4S is a practical choice for farms, orchards, gardens, nurseries, and crop protection needs.

ACCESSORIES

			
Spray Gun	Base Rubber	Tool Kit	Hose

FEATURES

- PORTABLE SPRAYING DESIGN**
 Mechnova MS35-4S comes with a portable design that makes it easy to move, handle, and use during regular farm spraying work.
- EFFECTIVE PRESSURE RANGE**
 The 1.5–2.5 Mpa pressure range supports proper spray coverage for crops, plants, orchards, gardens, and nurseries.
- FUEL-EFFICIENT OPERATION**
 The 630ml fuel tank and efficient engine performance make it suitable for regular spraying work with fewer interruptions.
- POWERFUL 4-STROKE ENGINE**
 Equipped with a JX35 air-cooled 4-stroke engine, this sprayer delivers smooth, efficient, and reliable spraying performance.
- STRONG WATER FLOW**
 With 3–8 L/min water flow, the sprayer helps cover more area in less time and supports faster field operation.
- RELIABLE FIELD PERFORMANCE**
 Built for agricultural and garden use, Mechnova MS35-4S offers dependable performance for crop protection, plant care, and farm maintenance.

USES OF MACHINE

Pesticide spraying

Fertilizer spraying

Crop protection

Garden & nursery
spraying

Farm sanitation
and disinfection

TECHNICAL SPECIFICATION

SPRAYING PERFORMANCE

- Pressure: 1.5–2.5 Mpa
- Water flow: 3–8 L/min
- Suitable for pesticide, fertilizer, and disinfectant spraying
- Designed for regular farm and garden spraying work

FUEL & OIL CAPACITY

- Fuel tank capacity: 630ml
- Engine oil capacity: 80ml
- Fuel-efficient operation for daily field use

FIELD APPLICATION

- Portable design for easy movement
- Easy to handle during field operation
- Suitable for farms, gardens, orchards, and nurseries
- Helps reduce manual effort during spraying work

ENGINE & POWER

- JX35 engine
- Air-cooled 4-stroke engine type
- 35.8cc engine displacement
- Engine power: 1.0KW / 7000 RPM
- Net torque: 1.6Nm / 5000 RPM

ENGINE STRUCTURE

- Bore × Stroke: 39 × 30 mm
- Compact and reliable engine design
- Built for smooth spraying performance

Uses

- Pesticide spraying
- Fertilizer spraying
- Crop protection
- Orchard spraying
- Garden & nursery spraying
- Farm sanitation and disinfection
